C. N. P. Recreation Board Announce Plans

Arnold Habetler, director of the Crows Nest Pass Recreation Board, told over 100 persons at a public meeting in the Horace Allen school auditorium April 9, the aims, purpose and plan of attack that the Board will use to co-ordinate a successful recreation program for the entire area.

Mr. Habetler stated that his plan of attack would include finding out the community essentials, assessing the needs as opposed to wants, assess the physical facilities and assess the presence of leadership as to quantity and quality.

He explained that the recreation office would be a co-ordinating and liaison office for the many groups and activities in the Crows Nest Pass.

A community calendar will be organized whereby all recreation will be listed and publicized so that there will be no conflict or clash of events going on.

For example he said, should a local club wish to put on an event on a certain date a check with the recreation office would indicate if the date would not clash with some other group's planned activity.

He stressed the fact that the recreation director does not give leadership but will aid leaders to develop programs. A leadership training program through Mr. Habetler's organizing talents will be

developed.

Mr. Habetler indicated that groups wishing to start various activities such as umpiring, coaching and other such clinics would receive help through his office as would groups wishing to start ceramics, leather craft and other ventures provided there was a want.

Proper and maximum use of the many facilities in the Crows Nest Pass through proper organization will also be a duty of the Recreation Board.

Organized groups having various problems are encouraged to bring their needs to the recreation director who will do all possible to try to find a solution.

Grant Hall of Blairmore, chairman of the Recreation Board, was present and gave a resume of why and how the Recreation Board was formed.

Chairman of the program committee, Harry Jepson, of Bellevue, conducted a question period that was very successful and interesting.

Southern Alberta Jr. Forest Warden Winter Camp

Forty-one Junior Forest Wardens from Lethbridge, Coleman and Blairmore enjoyed a winter camp out in the Kananaskis area about five miles north of Coleman. (Due to blizzard conditions in the morning of departure the boys from Pincher Creek did not attend).

The Lethbridge boys and supervisor were billeted in Coleman on Friday night and, with the Coleman Club, departed for the camp area at 8:15 o'clock on Saturday morning.

Three hours later the group had been divided into patrols, was on site and were busily completing their bivouacs.

After lunch and some individual exploration of the camp area the Wardens reported to the Headquarters Camp for a lecture on snare setting and general survival.

The lecture was given by Mr. RCAF survival instructor, Mr. W. Faulkner of Lethbridge, and was most educational to all.

Following the lecture Mr. Faulkner inspected each patrol's camp, pointing out the common errors and extending numerous tips to make this type of camping more enjoyable.

The boys then took a short free time break before starting to cook their supper. All meals were cooked by the boys over their campfires and, with a few exceptions, were done very well.

After supper final preparations for the night were made and by 8:30 all was in order including a nice big camp fire at each tent. At approximately 9:00 p.m. the boys crawled into their winterized sleeping bags and enjoyed the crisp night air, soft hush beds and crackling camp fire to send them to sleep.

Sunday morning found most of the campers snuggled a little further down in their bags, only a few glowing embers left of the fire and three-quarters of an inch of ice on the water pail. The fires were quickly revived by the more daring individuals and a hearty breakfast of porridge, fruit juice and hot chocolate was on its way down shortly after 8 bells.

At 9 a.m. the general assembly whistle was sounded and some "out-door cooking" methods demonstrated by Mr. E. J. Landry of Lethbridge and J. W. Dean of Coleman. Camp break-up commenced at 10 a.m. and after a quick lunch the boys started the trek back up the trail with their loaded toboggans.

Throughout the entire camp the activities were supervised by Messrs. Tom Hamilton, Blake Rothel and "Frenchy" Landry of Lethbridge, and Doug Usiski, Larry and Garry Nelson, Allan Spievak and John Dean of Coleman.

Mr. Rothel was busy filming each phase of the program with the assistance of Mr. Hamilton.

The fine weather and beautiful country that God has given us made this outing one that will be remembered in the minds of those participating for many years.

It is our hope that all Canadians may recognize this gift for what it is and help to conserve it for pleasures such as this and benefit of all.

Boys attending from Coleman: Allan Tuckwood, Ricky Skryzala, Allan Spievak, Robert Aiello, Jackie Hummel, Walter Sekella, Garry Taje, Danny Burrows, Gary Olivier, Ross Pitt, Garry George, Glen Wikstrom, Tim Juhlin, Ed Proc, Doug Littlewood, Robert Diskin, Terry Aris (Blairmore), Ward Krywolt, Peter Kinknear, Terry Kryczka.

Acknowledgements
Our sincere thanks is extended to those people from outside of our clubs who have helped us make this camp a success.

Transportation: Messrs. Gordon and "Toby" Marconi, Bill Kovach and Henry Zak.

Snow Vehicles: W. Kovach, Bobby Zak and Jerry Rinaldi.

Billets: All those who helped in this manner.

Counselors participating in the camp but not camping: Wm. Nummi and O. Celli. Laurie Williams and A. Gehman.

"It's better to give than to deceive" — especially when making out your income tax.

Heart and blood vessel diseases are responsible for more than 50 per cent of all deaths in Canada.

Mrs. Susan Brown Passes Away

Funeral services were conducted from the Pincher Creek United Church at 2:30 p.m. on Friday, April 12, by the Rev. Lawrence Edwards for the late Mrs. Matt (Susan Martha) Brown.

Interment followed in Fairview cemetery under the direction of Eden's Funeral Home.

Hymns sung were "Safe in the Arms of Jesus" and "God Be With You Till We Meet Again". The choir was in attendance.

Palbearers were Arthur Bratton, William Cox, Charles Enes, Arnold Jordan, Charles Riviere and Fred Welsh.

Honorary pallbearers were Harold Bratton, Joe Enes, Joe Class Joe Hunter, John Howarth and Dick Jackman.

Mrs. Brown passed away in St. Vincent's Hospital on Monday, April 1st at the age of 88 years.

Left to mourn her passing are two daughters, Mrs. J. (Ethel) Fischer of Springfield and Mrs. T. (Mildred) Holstead of Coleman; three grand-daughters, Mrs. Pearl Hanrahan of Lethbridge, Mrs. H. Wesley of Pincher Creek and Mrs. A. Bateman of Bow Island; seven great-grandchildren, two great-great-grandchildren and three sisters.

Born in Highland, Illinois, on March 8, 1880, she married the late Theodore Matthias (Matt) Brown, who owned and operated a store and taught school, in that State in 1898. In 1906 they came to the Springfield district where they purchased a ranch, which was a home with a welcome mat out for everyone.

In 1947 Mr. and Mrs. Brown retired to live in Pincher Creek, and she had continued to make her home there until her passing.

Surprise Party

Mr. and Mrs. Joe Trotz were pleasantly surprised recently when a number of close friends and relatives gathered at the home of Mr. B. Trotz to honor them on the occasion of their 25th Wedding Anniversary.

The couple, their daughters Dona and Dixie, two sons Joe and Gerry and Mrs. Trotz's mother Mrs. Margaret Antle, were escorted to the head table by Mrs. W. Davy, sister of the groom.

The head table was centered with a three tier wedding cake and surrounded by a shamrock motif, appropriate to their wedding date, March 17th. Mr. A. Pitt proposed a toast to Laura and Joe, and at the conclusion of a delicious supper, Mrs. Pitt sang "The Most Wonderful Night of the Year".

Miss Dona Trotz then presented her parents with numerous gifts from the family and a set of dinner ware from the guests assembled for which Mr. and Mrs. Trotz thanked all most graciously.

The evening's entertainment included a mock wedding in the old time tradition with Mrs. M. Campbell as the blushing bride, Mr. O. Galicia the groom, Alf. Pitt as father and Adolf Trotz as the local Marrying Sam (Minister), also a variety of parlor games followed by a dance with music provided by Mrs. J. Navratil, Don Townsend and John Kropinak which was enjoyed by all.

Heading of complaints often brings improvement to our product or service. There is a difference between the nasty cracks of a chronic griper and the honest claims of dissatisfaction made by a reputable person, but few managements are capable of differentiating between them.

Newspaper advertising brings the merchants "showcase" into your home.

Andy Russell Speaker Jr. Forest Wardens Banquet

Andy Russell, well known guide and big game hunter from Waterton, thrilled both father and son with tales of his experiences in the hunting expeditions in the Yukon and the wilds of northern British Columbia, at the Jr. Forest Wardens annual banquet April 5.

The most informative talk given by novelist Mr. Russell instructed the Wardens in the arts of woods travel and preparations necessary for this type of activity.

Following the supper prepared by the mothers of the Wardens, and served by the Jr. Forest Guards, counsellor-instructor Dal Herford called on Terry Aris, Terry Kryczka, Ward Krywolt, Allen Spievak, Walter Sekella, Tim Juhlin, Larry Longworth and Cameron Bellerose to receive the merit awards for accomplishment and service during the past year.

Guests introduced by John Deans, Club supervisor, included William Nummi, past chairman of the South Alberta Council of Junior Forest Wardens; Orazio Celli, vice-chairman of Coleman Junior Forest Wardens, and vice-president of the Coleman Fish & Game Association, who sponsor the Wardens.

Other counsellors present at the event included Tom Hamilton and Blake Rothel of Lethbridge Fish and Game Club; Gerry Gibson of Pincher Creek, as well as Coleman counsellors, Dr. Emil Aiello, L. Williams, Larry and Garry Nelson, D. Usiski, and past members of the Coleman club, Ed and Ken Deas.

Following several short addresses the program concluded after films of last summer's Southern Alberta Area Camp and recent winter camps in the Kananaskis enjoyed by the boys, was shown.

Camp Shelter To Remain Open

Coleman council, after hearing two appeals regarding council's decision recently to tear down the camp shelter in the town park, reviewed the matter and have decided against tearing down the shelter.

Council will do the necessary repair work around the shelter and grounds, and will attempt for another year to keep the tourist convenience in operation.

Present at the meeting were John Salus, representing the Coleman Lions Club, and Mrs. Emily Misura, a local citizen, who both expressed opinions that the camp shelter was an asset to the town and offered a valuable convenience to tourists as well as local persons.

The resignation of town secretary Cliff Noble was accepted with regret. Mr. Noble has been in Coleman since last July, and will now move to new employment in Edmonton.

Asst. secretary, Clarence Schlie will take over Mr. Noble's duties as of May 10th.

Approval was given to the Crafts of Alberta Trailer visiting Coleman on April 30. A narea on second street is to be prepared for

the 80 foot trailer's one day visit to Coleman. The trailer, a self-contained unit, will be open from 1 to 9 p.m. and will display a gallery of crafts and arts. Personnel will accompany the trailer.

Opening and closing of graves on Saturdays by town crews was discussed and since the town has to pay time and one half for this service on week-ends, it was decided to raise the cost from \$50 to \$60 per grave. Cost will remain at \$50 for the service during regular week days.

Coleman council will assess the value of a number of lots in town and offer them to residents of Michel-Natal and Sparwood, who wish to build in Coleman.

A general spring clean up of the town will get underway and will include removal of a number of derelict cars, grading and oiling streets as well as collecting any garbage that residents will prepare for pick-up in early May.

Mrs. Yagos Passes At 80 Years

Mrs. Anna Yagos passed away in the Crows Nest Pass Hospital on March 18 at the age of 80 years. She was born in Ostre, Poland, on February 25, 1888. She came to Canada in 1910, settling in Coleman, where she has resided since.

She was predeceased by her husband Albert in Coleman in July of 1944; two daughters, three sons and one sister in Coleman.

Surviving are two sons, Joseph and Edward of Coleman; three daughters, Mrs. J. (Carr) Pytlarz of Coleman, Mrs. H. (Joanna) Dugan and Mary, both of Pincher Creek; 11 grandchildren and six great-grandchildren.

Prayers were said in the Coleman Holy Ghost Catholic Church at 7 p.m. Thursday, March 21st. Requiem Mass was celebrated in the Coleman Holy Ghost Catholic Church at 10:30 a.m. Friday, March 22, with Rev. Walter Krawski celebrant.

Interment was in the family plot Coleman Catholic cemetery. Faintin Chapels Ltd. was in charge.

The 25 Year Club at General Motors of Canada has approximately 3,000 members. There are 30 men with 50 years or more of service.

St. Paul's To Mark Anniversary April 21

Peter Walker, minister of St. Paul's United Church, announced this week that the church will be marking its 62nd anniversary on Sunday, April 21st, with special services.

Speaker for the service will be Percy E. Dickieson of Calgary, a well-known former Coleman resident, and member of the congregation.

To mark the anniversary a banquet supper will be held in the church hall at 6:30 p.m. on Saturday evening, April 20.

Mr. Dickieson will be the guest speaker at this event and a program of entertainment is also being planned.

Apology

The Journal wishes to apologize for not publishing our April 3rd issue, but owing to the death of the editor's mother-in-law, Mrs. Susan Brown, on April 1st, we were unable to publish that week.

The optimist proclaims that we live in the best of all possible worlds, and the pessimist fears this is true.

Lions Circus on Friday, June 28th

Coleman Lions started the ball rolling on the big three-ring circus the club is bringing to the Crows Nest Pass on June 28.

The Hubert Castle shows, one of the best known wild animal shows, has been engaged and the club are presently looking into various sites where the circus can be located.

The club also opposed the town council's recent decision to tear down the camp shelter in the local park, that the town council feel is being used as a hangout for juveniles rather than for its proper use.

The club feels the shelter is an asset to the town and with a little more policing, more lighting around the shelter, and with citizen participation, the vandalism being done around the shelter and park would be stopped.

Lions' John Salus and Everett Lindstrom were delegated to attend the next meeting of council to express the Lions Club's views. Lions also discussed possible fluoridation of the town's water supply and members of council and Dr. R. B. Burgman of Blairmore were invited to attend a future Lions meeting to discuss the matter.

The matter of promoting "fast time" was also discussed and will be further discussed.

During the meeting Lion Horace Allen was called upon to present the club's annual curling trophies to the winners of the high school curling. The Bill Rowland rink, including lead Darlene Trotz, third Janice Kinknear, and second Sandra Haslett, who were guests of the Lions, accepted the trophy and smaller individual trophies.

Everett Lindholm, a charter member of the Fort Nelson Lions Club, who recently took up residence in Coleman, was installed into the Coleman club.

Two copies of the Lions International "Search for Peace" essay contest were presented to school principal Horace Allen to be placed in the library of the Horace Allen school.

Game Down 30 Per Cent

The Willow Valley Trophy Club conducted its eighth annual wildlife survey on March 30 and reports indicate that game is down approximately 30 per cent.

The survey, conducted by approximately 14 district members in the Willow Valley Trophy Club, was done on March 30 in the north half of Zone 13 WMU F306 (Willow Valley Zone).

The report also indicates that the ground conditions were not as good this year as in former years. The other half of the zone will be completed in the near future.

The survey accounted for 173 mule deer this year as compared to 251 last year; six moose this year as compared to 14 last year; 33 elk this year as compared to 41 last year, and seven coyotes this year compared to nine in 1967.

break on Saturday, June 8.

The club is planning a number of events for the season and any sportsman wishing to join the active club may obtain membership from Rudy's Texaco Service, in Coleman; Vern Decoux or W. Sygutek, Blairmore; Jerry's Sport Shop, Bellevue; Ralph Michalski, Burnis; James Price, Lundbreck; Johnson Bros. Sawmill, Cowley; Myles Motors, Viscount Sports, Jake Smith, Charles Price, Harvey Dersch, Leo Bourassa, Al Goddard, all of Fort Macleod; Hans Rasch, Magrath; Lawrence Halmrath, Warner; Gordon Cole, Etzikom; A. C. Bair, Milk River; Jim Wutzke, Bow Island; Roy Harker, Magrath; Harvey Cummings, Standard; Ray Campbell, Cardston, and E. J. Landry, at 620 - 9th avenue South in Lethbridge.

There are 80,000 automotive businesses — one of every six firms — in Canada.

Another need of the times is a typewriter that will make a non-committal wiggle when you aren't sure about the spelling.

Mill Rate to Remain at 66

Town council, at its meeting March 27th, announced that there would be no increase in Coleman's 66 millrate.

Chairman of Finance Fred MacLeod stated that after careful and close budgeting had been done, the committee was able to set the millrate without having received the requisition from the Crows Nest Pass School Division No. 63.

Mr. MacLeod advised that a 10 per cent discount on tax payments would be allowed for 30 days after mailing of notices and a discount of five per cent after 30 days and up to 60 days after notices have been mailed out.

Mayor John Holyk forecast an income of approximately \$172,000 for the town of Coleman of which \$83,677 would come from taxes and the balance from town-owned utilities and grants.

This budgeting, he stated, would see the town end the year with a surplus of over \$300 as compared to a surplus of \$3747 in the previous 1967 year.

Mayor Holyk also advised that the across-the-board increases for town employees had amounted to approximately \$6,000, representing over a 10 per cent increase. Meanwhile employees are request-

ing the town give consideration to payments for MSI and Blue Cross coverage.

Correspondence was received from Underwood, McLellan and Associates offering their services to engineer, plan and handle details for Coleman paving program under the Department of Highways, provincial grant for street and road construction. Coleman is planning this work for 1969 under the government's five-year program.

Alex Wells, chartered accountant of Blairmore, was appointed auditor for the town of Coleman, and the town-owned utility companies.

Town electrician Ernie Montalbeti was granted his three-weeks holiday plus a three-week leave of absence so that he can make a trip to Italy at the end of July.

Several applications for summer work by school students were received. Council has set the age limit for applicants to be a minimum of 16 years. Town foreman Rudy Szymanski will carry on with a street grading and oiling plan.

Gas Company Offer Services to School Board

D. M. Murray, industrial and commercial supervisor for Canadian Western Natural Gas Company, presented a brief offering to provide natural gas service to the proposed new high school being planned by the Crows Nest Pass School Division No. 63.

The Company is also willing to meet with the Board of Trustees to discuss the financing of a total energy system for the proposed school.

A letter is to be sent to tax collecting authorities in the Pass, advising that the board at the present time cannot say, even though they have a fair idea of what expenditures will be for the coming year, how much the supplementary requisition will total, until the school foundation program formula is received. This matter is to be discussed at a meeting to be held March 28.

The board will seek the consent of the Minister of Education to borrow on a revolving basis, an amount up to, but not exceeding at any one time, the sum of \$250,000 for current expenditure pending receipt of payments under the foundation program and/or payments from municipalities on supplementary requisition.

The board approved secretary John Albizzati to make application to borrow the sum of \$15,000 repayable in five years at a rate of 7½ per cent per annum for land purchase for the new proposed composite high school to serve the division.

A letter is to be sent to the Canadian Pacific Railway requesting that freight cars be parked elsewhere than on the siding parallel to the Mountain Air subdivision in Blairmore. The request is being made as many of the school students of the Isabelle Sellen school are climbing between and over the parked freight cars on their way to and from school.

The resignation of Mrs. William Beck of Blairmore as teacher and vice-principal of the grade four class in the Cameron school in West Coleman this June was accepted. Mrs. Beck is resigning due to her retirement.

Stock Car Club Formed

John Johansen was elected president to head the Crows Nest Pass Stock Car Racing Club. Other officers include vice-president, John Chomyn, and secretary, Brian Cecchini.

The newly-formed club will be named the Pass Auto Racers' Association and fees have been set at \$10 per year, plus an additional dollar for a car number.

The club will concentrate on a "C" class car in their initial year which will only permit a motor up to 300 cubic inches to participate. The Association is open to any males 18 years and over, who are holders of a valid Alberta drivers licence. Males under 18 interested in becoming members must produce and have the written consent of their parents or guardian before they will be accepted.

The meeting, held in the Bellevue Community hall, was attended by close to 100 interested persons.

After the election of the executive, start of a set of rules and regulations commenced, and will be added to as the club progresses. Two factors that were stressed were safety and personal conduct. Each car that enters the track

must pass a safety and technical check and if the unit is not up to par it will be disqualified until the necessary changes are completed.

Adult behavior of all members is expected both on and off the track, and records of both are to be kept by the club.

Know Your Water Safety

Know your Water Safety and then pass this knowledge on to others, especially the smaller members of your family. And — above all — "practice what you teach".

There is no room for a "smart alec" or "show-off" in water, be it in a boat or in a swimming pool — One silly antic can cost a life — maybe your own.

Don't take unnecessary chances by being over-confident in your ability to master all situations or emergencies. Capable swimmers and experienced boatmen have lost their lives through some small bit of carelessness on their part.

Learning to swim is only part of water safety protection. Make yourself familiar with all the hazards of water activities. To ignore these dangers is to court disaster deliberately.

Red Cross provides swimming and Water Safety instruction.

Take advantage of it. Literature on Water Safety Facts and lists of Water Safety hints can be obtained from your nearest Water Safety Program. Post these in a prominent place at your summer cottage and refer to them frequently. Make sure that everyone in your swimming pool or your boat, or under your supervision, observes all Water Safety rules.

There were 45 drownings in Alberta in 1966. Many of these could have been avoided by following water safety rules.

Remember that Red Cross is there to serve you in providing instruction in:

Swimming and Water Safety.

Boat Safety.

Ice Safety.

Water Safety Around the Home.

Artificial Respiration.

It is of the greatest importance to learn to anticipate danger and to prevent that one fatal slip — especially where small children are concerned. They move quickly and their movements are of-

ten unpredictable. They need constant supervision. Children have drowned in as little as two or three inches of water.

Eleven Water Safety Rules

For Parents—

- 1—Watch your children when they are near the water.
- 2—Children are poor swimmers or non-swimmers. They must wear life jackets. (Department of Transport approved).
- 3—Watch children playing with plastic toys. These drift away quickly into deep water.
- 4—Don't use inner tubes, water wings, etc., as these build false confidence.
- 5—Children need Vigilant Supervision even after they learn to swim.
- 6—Do not permit swimming in unknown parts.
- 7—Do not swim alone. Child and adult may both panic when no help is near.
- 8—Don't swim in the dark.
- 9—Know and teach "reaching assists".
- 10—Prevent boat accidents. Wear Your Life Jacket.
- 11—Don't overload a boat. Take two. If boat capsizes, HANG ON.

And Don't Forget — Use Red Cross Water Safety Services.

Blood Clinic

April 17th

Mrs. Anna Fabro, chairman of the Crows Nest Pass Red Cross Blood Donors Clinics, announced that Wednesday, April 17, is the date set for the annual spring clinic in Blairmore.

The clinic will be held in the Elks hall from 2:30 to 3:30 p.m. and from 6:30 to 9:00 in the evening.

Mrs. Fabro stated that the clinic held last May realized a total of 143 bottles of blood and for the year a total of 136 bottles were used in the Crows Nest Pass.

Quota for this spring's clinic is 160 bottles, so all donors are urged to turn out.

Rejuvenating Sex Hormones

The ovaries of women during the child-bearing era produce two types of chemical or hormones:—estrogen and progesterone. These sex hormones are part of a whole family of compounds known as prostestins. These hormones are produced in the body, but others can be treated or synthesized by the chemist. In clinical medicine the hormones used have basically the same effect, whether synthetic or naturally produced. The Canadian Medical Association says it is important and reassuring to the patient to realize that these hormones are normally produced in the body.

The use of these sex hormones is particularly evident in oral contraceptives and in treatment of the menopausal and post-menopausal woman. Because these uses have become so widespread during the past 10 years it is natural that the general public should display great interest in them. It should be stated, however, that estrogens in particular have been in use clinically for about 30 years and therefore are not new by medical standards.

Under certain experimental conditions, and in certain types of animals, it has been possible to initiate breast tumors by the use of estrogens. Naturally this has caused some concern on the part of physicians, but there is no established evidence that estrogens can cause cancer in a human. On the contrary, estrogen is often used in the treatment of breast cancer, and may cause the disease to shrink and remain inactive.

The CMA reports that during the period of time estrogens have been in use clinically, doctors have not detected any increase in the number of cases of breast or genital cancer. Published studies of women receiving oral contraceptives over long periods of time have shown no evidence of an increased number of cancers of either breast or genital organs.

Letters to the Editor

323 Riverside Dr.
Timmins, Ont.,
March 19, 1968.

The Editor,
The Coleman Journal,
Coleman, Alberta.

Dear Sir:

I am enclosing a cheque for \$2.50 for another year's subscription to my home town paper, so as to keep in touch with the happenings of Coleman and through the Pass and to hear of old school mates and friends.

Yours truly,

Myrtle Jennings.

Marysville, B. C.
March 17, 1968.

Dear Tom:

Please find enclosed money order for \$5.00. Sorry I am late again and glad you still sent the paper as we would miss it.

Hope you and Mrs. Holstead are well.

Mrs. O. Smith,
Box 138.

47, Skinner St.,
Nanaimo, B. C.,
March 23, 1968.

Coleman Journal,
Coleman, Alberta.

Dear Tom and Mildred:

Time again to renew my subscription to The Journal.

Would surely miss it if you ever decided to call it quits, and retire from the business.

Horrible thought, ay?

Anyway enclosed please find a cheque to cover same.

Hope you are both enjoying good health. I am fine, hoping this year I will have more time in the Pass during holidays so I can get to see more of my old friends.

All the best to you both and regards to all in Coleman.

Most sincerely,

Ethel Kostelnik.

926 - 18th Ave. N.W.
Calgary 43, Alberta,
April 1, 1968.

Dear Mr. Holstead:

Please find enclosed Money Or-

der for The Journal. We look for it all the time. I am sorry I am a little late, but have Ernest in the Col. Belcher Hospital. Will be there some time and I am leaving for Edmonton University Hospital for surgery myself.

We wish to be remembered to all friends in Coleman.

Hope you and Mrs. Holstead are well.

Yours truly,

Mrs. E. R. Kennedy.

Some people would rather be wrong than quiet for a moment.

Gordon Sinclair, journalist and controversial broadcaster, offers a self-portrait in the Telescope program A Cock of the Walk, to be telecast in color Thursday, March 7th on the CBC-TV network.

If you own 1959 Canada Savings Bonds

Here's a special offer just for you

The Government of Canada has created a special new high-yielding security for the advance refunding of 1959 Canada Savings Bonds. These Special Replacement Bonds will be dated May 1, 1968, and will mature in 10 years 5 months on October 1, 1978. They will be available only in exchange for an equal amount of 1959 Canada Savings Bonds, and not for cash. Their average annual yield to maturity will be 6.88%. They will retain all the standard features which have made Canada Savings Bonds the most popular investment in Canada's history. This includes the right to cash them any time at any bank for full face value plus earned interest.

In addition, Special Replacement Bonds offer the opportunity to double your money. If you choose not to cash your regular interest coupons during the life of the bond, 3 Compound Interest Certificates then become payable for a total of \$280.00 extra (on each \$1,000.00 bond). This amount plus your regular interest coupons doubles your money. You can take advantage of this compound interest feature in various ways.

And that's not all. There will be two Prepayment Coupons, cashable May 1, 1968, attached to each Special Replacement Bond. They represent the 6 months' interest already earned by your old bond and the prepayment of the 3% non-taxable premium originally due November 1, 1968. On a \$1,000.00 bond, these two Prepayment Coupons will be worth a total of \$55.00.

The exchange procedure is simple. Take your 1959 Canada Savings Bonds to your bank, authorized investment dealer, trust or loan company. They will make all arrangements for you. Exchange your 1959 Canada Savings Bonds for the new high-yielding Special Replacement Bonds without delay. This offer expires on May 15, 1968.

How to recognize your 1959 Canada Savings Bonds

First, the serial number in red in the upper corner of each bond is preceded by "S14" in black. Second, the name of the issue, "1959 Series" is shown just below the serial number.

It's coming!

The Alberta Trailer of Crafts will be here:

SEE IT IN THE FOLLOWING CENTERS

COLEMAN
APRIL 30th
BELLEVUE
MAY 1st

The Arts and Crafts Division of the Alberta Government Cultural Development Branch brings to you a "Travelling Exhibit of Alberta Crafts". Every item in this colorful 52 foot trailer is the work of Alberta craftsmen, both professional and amateur. More than 300 items are on display, something for everybody including children.

Don't miss this splendid exhibition of . . .

WEAVING METAL WORK
JEWELRY BASKETRY
FABRICS LEATHERWORK
BATIK STITCHERY
CERAMICS PHOTOGRAPHY

and many other areas of craft involvement.
OPEN DAILY FROM 1:00 P.M. TO 9:00 P.M.

It's all free!

Maiden Speech

Charles Drain, M.L.A.

March 4, 1968.
9:00 p.m.

Mr. Charles Drain, Member for Pincher Creek - Crows Nest Constituency

Mr. Speaker, it is an honor indeed to be afforded this opportunity of addressing this House for the first time. It also gives me pleasure to reiterate the good wishes that have been expressed to you by so many people on the honor of your high office.

I also wish at this time to extend my congratulations to Premier Manning on the 25 years of devoted service that he has rendered to the people of Alberta. I am confident also that the interest of our people will be well served by our new Members in the Cabinet.

Further, my congratulations to the Hon. Leader of the Opposition, Mr. Peter Lougheed, the Member from Calgary West, on achieving his responsible position. My best wishes to all the new Members who have been chosen by Albertans to represent them.

As I look across this Assembly I have a feeling that there is a dedication and that we are all here to do our utmost for the good of this province. I wish to praise the Hon. Member from Calgary West on the delivery of his speech this afternoon on the Budget. He is to be commended on the scope of his research and his expressed concern. However I cannot help but question some of the logic of his remarks. If there is a method of spending more and paying less, such valuable information certainly should not be kept a secret. I deplore the depletion of our liquid reserves, but this can be accepted on the basis that they were built up to be used on a rainy day. It appears that it is heavily raining in Alberta. I personally also am concerned about any projection of a debt financing cycle for future expenditures. Income and expenditures should be in balance. If extra services are required, income should be adjusted to take care of the cost. I certainly hope that the projection by the Hon. Leader of the Opposition in respect to foreseeable income in the 1967-68 Budget is not too accurate.

Mr. Speaker, I cannot help but admire the ability of our Opposition Members. They pop up from behind their desks, ask questions and drop right down. Being a rural Member I can only relate their behavior — and this term I do not use in any sense of disparaging their good efforts — definitely from here sitting in the back bench, it reminds me slightly of the activity of gophers. However, it being the prerogative of gophers to dig, as the Hon. Member from Banff-Cochrane is very well aware, these Members are certainly digging with great zeal.

However, I note during the process of the operations of the Assembly, there occasionally arrives a vast accumulation of paper and I am wondering if the total of questions and the total of papers will create such an influx that some of the Hon. Members may not be buried. I am concerned, especially about the Hon. Member from Calgary West, being that he is slightly shorter than his compatriots, and I can look across at him and see a smile, and this cheers me during the day, and if I had to look at a bunch of paper instead, certainly I would be very disappointed.

Mr. Speaker, I deplore having our fair province of Alberta being referred to on both sides of the House as "good old Alberta". To me, with half the population under the age of 30, this being one of the younger provinces in Canada, I think it would be far more appropriate if our province was referred to as "the go-go-grow province" under Social Credit.

Much has been done in Alberta in furthering the interests of our people, as the Budget indicates. More needs to be done. It has been asked by the Hon. Members of the Opposition, what is being done by government to enlarge industry, create wealth, add to the social services, spend less and receive more. Government in itself creates no wealth — you know I wouldn't have put that in if I had seen this Report of the Royal Commission on Consumer Problems and Inflation — Government can redistribute wealth, but not create wealth. The industrial climate of Alberta is not determined by the directives of the Alberta Legislature, regardless of their good intent, but by the involve-

ment of all major markets and political areas in the world. The crisis in the Middle East results in an oil boom in Alberta; development of Alaska crude reserves has the opposite effect. The function of Government is to create a stable environment that industry can respond to. However, the legislative climate is indeed important. The enactment of the Alberta Estates Act is one of the ways whereby economic environment for growth and expansion is created. Unfavorable legislation as in Saskatchewan under the CCF Government resulted in a dormant economy with a static growth rate and a population loss. Economic and fiscal responsibility as practiced in Alberta with one of the most favorable environments for development, will result if this climate is maintained, in spectacular developments. This in my opinion is the function of good government.

Mr. Speaker, I note that the Alberta Budget for Welfare is \$58,000,000. I suggest, to you, Sir, that there should be a reassessment of all welfare payments on the basis of need only. Baby bonuses, universal Old Age Pensions, Unemployment Insurance, should be revised in order that the people who really need this help will be the recipients. Mr. Simpson's idea of subsidizing employers as an incentive to absorbing the less saleable members of our labor force is one that should be explored to the utmost. Experience has shown there is a marked relation between alcoholism and welfare.

These people are basically sick. I commend the Government on their awareness of this problem and the actions they have taken to rectify it.

At this time I would like to commend the Hon. Dr. Ross on his thorough report on the medical progress and health programs that have been inaugurated and his Department is instituting and carrying through in Alberta.

I approve the provincial outline for housing and urban renewal in the amount of \$4,200,000. However, in my opinion, Mr. Speaker, this is such a minor approach to major problems. Mr. Speaker, it is my request that a research project be set up that will develop a modern 20th century approach to the problem of building houses. What I have in mind is a factory approach, using new and versatile materials which will bring the cost of housing down to a reasonable rate that our people can afford. What is needed in Alberta is an assembly-line method for housing. If cars were manufactured by the same archaic methods that are used for building housing they too would cost from \$25,000 to \$30,000 per unit.

I note in the Budget the development in the improvement of the lot of the less fortunate citizens of Alberta will continue to be regarded with high priority. Most certainly, Mr. Speaker, as long as possible poverty exists in Alberta, uniting efforts must be made to rectify this. To me this is a blot on the fair name of Canada that the people who have spent the best years of their lives in primary industry where the attrition to health and well being is so intense, are forced to spend their latter years in sub-standard living conditions and in dire poverty, where their living standards are daily being eroded by the cruellest tax of all taxes, the attrition of inflation. A tax which they have no means to protect themselves against.

Mr. Speaker, the continued expansion of our cities, with a corresponding urban blight is far from desirable. The end result will be a compounding of social problems. I urge, Mr. Speaker, the development through policies, by the Department of Industry, to encourage the decentralization of industry, and that this be encouraged to the fullest degree possible. This action, if implemented, will do much to further even orderly growth patterns throughout the province, and result in a more equitable distribution of provincial income.

Mr. Speaker, I would like to mention educational costs, a major concern to all in Alberta. All of us must realize that the degree of local autonomy is inter-related to the extent of involvement of senior governments in the financing of local governments.

Local governments accept their responsibilities and cherish their autonomy. I note that the Motion by the City of Calgary that the

provincial government assume full costs of education was deservedly overwhelmingly defeated by the delegates at the meeting of the Union of Urban Municipalities.

Further the remission of a tax source in one area of government must be replaced by another. We cannot have it both ways. There is no way to show the tax burden under the table and then pretend it is no longer in existence. However, the big Gable with municipal tax is that it is so direct. It comes up and hits the taxpayer right in the face. Thus, being eye-balled, it is probably the most resented of all forms of taxation.

Here too the attrition of inflation appears, but so it will in all tax fields. It is interesting to note that in the life span of the youngest Member of this Assembly, the world has moved further and faster on the road to knowledge than in the entire era of written history. It is startling to think that 90 per cent of the people who are presently on research in the entire world, are working at this time. The future complexities of our society require more and better education. Our government is meeting this challenge with the allocation of 30.82 per cent of the total Budget for education. However, Mr. Speaker, my thinking is that the retraining of older workers, 45 and over, is also important.

The making available of district agriculturalists in order that our rural population can reap the benefits of scientific research, the acknowledgement that education really begins when people leave school — this too is important. The future expenditure for education in Alberta must be related to the future ability of the people as a whole to absorb the cost. For instance, a person cannot drive a Cadillac if they've only got the price of a Chevrolet car.

Nor should University training be treated basically as a status symbol. There are many self-trained people in our society who find the pathway to promotion barred to them because of unrealistic barriers that have been set up that are not based specifically on the area of ability.

However, to me, Mr. Speaker, the most important people are the primary producers. These are the creators of wealth. The farmers, the loggers, the manufacturers, the miners, oil workers, their place too should be prominent in our society. They should not be required to stifle economically to feed an educational monstrosity that could be created if the present cost trend in education is intensified.

At this time, Mr. Speaker, I wish to congratulate our government on the pioneer spirit that they have shown in the construction of the A.R.R. railroad. It is surprising to note that the construction of the CPR was undertaken by a Conservative government under Sir John A. Macdonald.

Apparently Conservatives were able to think more positively in the 1870's than in 1968. As to the timing of the venture, permit me to point out that railroads are not built overnight. A development of this nature will greatly strengthen the economic base of the northern part of our province and we have a capital investment that we can capitalize on when and if required to do so.

Mr. Speaker, I wish to congratulate the Hon. Provincial Treasurer on his awareness of the economic climate we presently find ourselves in in Canada. There are limits to our capacity to achieve all the desirable objectives at the same time.

Certainly the onus is on our Senior Government for the economic morass that we in Canada presently find ourselves in. Had the government of Canada expended some of the restraints in spending as practiced in Alberta, and thereby followed a reasonable — and I say reasonable — pay - as - you - go policy, we would not now find a situation where the Canadian dollar is under question in the money markets of the world, and the ever-increasing costs of goods and services squeeze those in our economy who can least afford to pay.

Mr. Speaker, I am justly proud, and at the same time humble, that I have been afforded the great honor of representing the great Constituency of Pincher Creek - Crows Nest. This Constituency has contributed much to the wealth of Alberta. In the last two Great Wars, the coal from the Crows Nest Pass fueled the fires of industry in many countries.

Our present industries are coal mining, lime production, generation of power, production of cable, lumber, cattle, grain, sulphur.

We have some of the largest gas wells in Alberta. Our people are cosmopolitan, coming from every part of the world. They are rich in culture and understanding. — These are my people. I am proud to have been given this opportunity to serve them.

The PincherCreek - Crows Nest Constituency is the playground area of Alberta. Any development here will serve to add to the enjoyment of many people from other areas in this province, who come here to hunt, fish, camp, rest and play. Further development of this area will be of much benefit to many Albertans.

Mr. Speaker, I humbly request for my Constituency the following: The joining of the Waterton Lakes and Red Rock area road with forestry south Castle road in order that tourists can enjoy the benefits through our unspoiled wilderness beauty; thus the present pressure on the Waterton National Park areas will be alleviated.

Improvement to the Kananaskis Highway from Vicary Creek to the Gap is essential as a safety measure for the protection of the travelling public; also oiling of this road is in the interest of safety and comfort. In this I wish to point out that the traffic on the Kananaskis Highway has doubled, and conceivably could triple this year, and this is a winding dangerous road, and it certainly is a hazard.

Development of fishing by the establishment of a fish hatchery in order that our fishing can be maintained. This is necessary because of the intense fishing in our streams.

The necessary conservation measures to ensure that our big game population will not be completely depleted, because of the terrific hunting pressure.

Additional enforcement measures for big game protection and the safety of hunters in our area.

I urge, Mr. Speaker, the very necessary expenditure for dredging of the Crows Nest River for the protection of people and property. This must receive priority.

The need for a new hospital in the Pincher Creek area is most essential, and the location of an auxiliary hospital for the district is also very desirable and necessary.

I cannot stress too strongly the great benefits that will accrue in practical human resources development by having a district agriculturalist available in the Pincher Creek area in order that our agricultural community will be able to utilize the technical knowledge presently available. We in Pincher Creek - Crows Nest are most grateful for the financial assistance given the Crows Nest Pass Municipal Hospital by Dr. Ross' Department of Health for upgrading their facilities. The money so allocated has been well and judiciously spent. Our Hospital Bd. deserves considerable credit for their effort.

The fire hazard in the Pincher Creek - Crows Nest area during the last fire season was probably greater than it has been at any time in the last 35 years. It is certainly to the credit of the Forest Service the manner in which they contained the numerous outbreaks of fire. One specific fire outbreak at the 7,000 foot level was contained and stopped within a half an hour. This in itself alone resulted in the saving in fire protection sufficient to pay the entire wages of all the forestry personnel in the area for a year. Certainly they deserve our thanks.

Also the upgrading of Number 3 Highway from Cowley to Burmis was a most welcome improvement. I commend the Department of Highways for it.

I also wish to express my thanks to the Hon. Mr. Hook's Department of Welfare for the inaugurating of a Preventive Welfare Service in our area.

The Pincher Creek - Crows Nest area is rich in history.

Here came the tribes of the Blackfoot confederacy after the great prairie fire. Black were their moccasins from the burnt grass. They were strong people, rich in horses, with many guns for making war and hunting buffalo. The original — I don't know why I am putting this in, but I had better finish it now — the original Indian tribes the Kootenays, having neither guns nor horses, were driven into the mountains of B.C., far from the buffalo, their food staple, where they had to live on fish and whatever game they could get.

During the winter when the Pegans and Bloods were in camp, the Kootenay Indians would cross through the Crows Nest Pass to hunt the buffalo. And killing the buffalo, an Indian would bone the carcass and pack it into two packs — He would walk westward for half a day, and then head back for the second pack. Thus he would finally wind up — on the Hon. Dr. Ross' home range — on Tobacco Plains, with his meat.

Things weren't too good in "good old Alberta" for the Kootenay Indians.

The first white man through the Crows Nest Pass was Phillips, a young English employee of the Hudson's Bay Company, who arrived in the Kootenay area to trade gold for his company about 1860. He discovered the Crows Nest Pass from the west in 1872 while hunting. This Pass was the only Rocky Mountain Pass discovered from west to east.

The Pincher Creek area was first settled in 1880's by French Canadians from New Brunswick, Maine and New Hampshire. These along with a sprinkling of English and Scotch, were the original inhabitants of this area.

French was the principal language spoken for many years in Pincher Creek. It is regrettable that this culture is now lost.

Here was one of the first sawmills in Alberta. The machinery was brought in from Fort Benton, Mont., by ox train. Here was the site of the original oil rush in Alberta. Many oil and gas wells were drilled in the 1900's but the equipment of that day was unable to get down to the bottom. On one well site deep in the Rockies, a boiler was packed in tandem style for 20 miles by two giant Percheron horses. The boiler got there, but both horses died.

Among the many tourist attractions of this region is the vast area of the Frank Slide, consisting of 66,000,000 tons of rock, which descended on the sleeping town of Frank, burying many inhabitants. This happened about 1903.

Nowhere in Alberta are the mountains more beautiful or accessible than in the Crows Nest Pass area. West of Pincher Creek and north and south of the Crows Nest Pass are hundreds of square miles of Crown land, the property of the people of Alberta.

We are indeed grateful to the Department of Youth for the Crows Nest Pass Recreational Development program. This human resources development program is proceeding very favorably. On behalf of the people of the Crows Nest Pass, I thank the Minister of Youth, Mr. Robert Clark.

The urban renewal study for the Crows Nest Pass is most essential, and it is anticipated that this will soon be underway and could result in the removal of some of the sub-standard housing, and a new look for the Crows Nest area.

Mr. Speaker, many things must be done in the Pincher Creek - Crows Nest to bring our standards up. Our people are willing and eager to help themselves.

I humbly hope that I can properly assist them in their efforts.

To the Hon. Members of the Legislature, some of whom who have not yet visited the Crows Nest Pass — this beauty area of Canada — on behalf of the Pincher Creek - Crows Nest Constituency, I invite you to come any time of the year. Come and ski — gaze at the beauty of our mountains — enjoy the hospitality of our people. Warn yourself in our salubrious climate. Those from the north can come and get the icicles melted out of their veins at no extra charge.

After one visit you will be eager to help me to help the Pincher Creek - Crows Nest Constituency.

I note that I have made quite a number of requests for this our Constituency, and in view of the straitened circumstances of the money I will not ask that the Members of the Cabinet do all of these things for us just right now. If some are done this year and the rest are done next year, that will be fine.

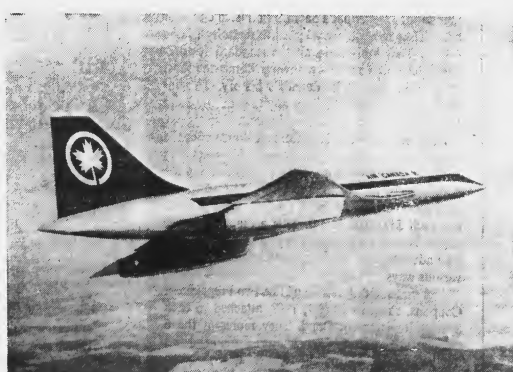

Thank you, Mr. Speaker.

Business uses advertising to maintain and increase its outlets for goods. Unless such outlets are maintained and increased, the income from which taxes are based will not be forthcoming.

MUSICAL TOM JONES

Douglas Fairbanks, Jr., stars as the narrator and Squire Allworthy when The O'Keefe Centre presents: Tom Jones, a new musical for television. With him here are "villag girls" Starr Duffett (left) and Elizabeth Walsh.

The Concorde, the world's first supersonic jetliner (shown above) is to be unveiled at Toulouse, France Dec. 11. Air Canada has reserved delivery positions for four of the 1,450-mile-an-hour aircraft to be delivered in 1973-74. The needle-nosed supersonic transports will cost about \$20 million each, double the cost of today's big jets.

Council to Prepare Utility Rates for School Board

Coleman council was met by a delegation from the Crows Nest Pass School Division No. 63 Board of Trustees, requesting that Coleman provide a schedule of utility rates for the proposed new school the division is planning to build east of Coleman.

Coleman owns its own light and water company, its own sewerage system and its own natural gas company. The secretary was advised to draw up a tentative agreement on the rates requested. Correspondence received from the Department of Municipal Affairs advised that the equalized assessment in the Crows Nest Pass has been reduced by 15 per cent in towns and 25 per cent in villages.

The secretary was advised to draw up a letter informing the town of Blairmore that Coleman is

not interested in hiring a joint engineer to serve the towns as costs are nominal.

The town is not in favor in a district cemetery or hiring a caretaker for this work. With regard to hiring a dog catcher to service both towns, Coleman wish more information, indicating whether this would be a full time or part time job.

Secretary Cliff Noble is to review the town's insurance coverage with Vet's Insurance and have him submit a bid on the coverage as appraised by Sir P. A. Stone-

house.

Secretary Noble reported that 17 properties will be up for tax sale on April 29.

The list of properties will be advertised on April 15. He reported that the court of revision was held on March 14 and of the four appeals one was adjusted.

A report of the annual meeting indicated the Public Works Department had mainly done maintenance work during the year, but plans are underway to get town streets in condition for a proposed paving program.

Chairman of the Police Committee Mel Cornett reported that policing in town is now being done by the RCMP police at no cost to the town.

Councillor Fred MacLeod advised that the Crows Nest Pass Recreation Board was now set up and was functional. Arnold Habetler has been appointed as recreation director for the area.

Mayor Holyk reported that the sewerage system was working efficiently with a total of 170 hook-ups so far. The system will require \$10,000 from the town to operate in the future. Mr. Holyk also reported that the new pump-house, built for the town's Light and Water Company, was in operation and the company ended the year with a \$5,000 surplus.

Fire Chief Zak's report indicated that brigade had had a good year in fire prevention work.

He also stated the unit had held several social events, competitions and had done considerable charity work during the year.

Chairman of the Parks Committee, John Binda, reported that the town was planning tearing down the camp shelter in the town park as many young people were using the shelter as a "hang-out".

If the town does tear down the shelter, it was suggested that outdoor fireplaces be built for use of tourists.

Stu Murdoch, Coleman representative on the Municipal Hospital Board, spoke on the operation of the hospital and advised that the government would not consider construction of a new hospital for the Crows Nest Pass at the present time, but had granted the sum of \$75,000 for hospital renovations. Mr. Murdoch stated that many improvements have been made to the hospital and

much of the renovations work is now complete.

Recipient Of Centennial Medal

Miss Margaret Dunlop, retired Coleman school teacher, was the recent recipient of a Centennial Medal.

Miss Dunlop was born in Lethbridge, but started school in Coleman in grade one. She moved to Northern Saskatchewan with her parents at an early age, returning to Coleman in 1917.

She took all her high school in Coleman and in 1921-1922 attended Normal school in Calgary. After teaching school in Ardenville (a small country school between Ft. Macleod and Waterton Lakes) she returned to Coleman in September, 1922, and taught here continuously until June, 1966, when she retired after a 44-year teaching stint. She was vice-principal of the Cameron school in West Coleman where she taught for 40 years.

The other four years were spent at the Coleman Central school. Records indicate that at least 1,000 elementary students have been taught by Miss Dunlop, who is now retired in Coleman.

National Wildlife Week - 1968

This year National Wildlife Week will be observed from April 7th to April 13th.

Canada's wildlife must be conserved if her people are to prosper. Animals, birds, fish, insects—even down to the lowliest worms and bugs—have their part to play in developing and preserving all our natural resources.

Important as it is in providing a commercial resource, wildlife is of even greater importance to the country because of the attraction it offers people on holidays.

Our treatment of wildlife has not added to our glory.

There are things we must realize. We need to stop our soil from running down gullies to the sea; we need to stop spilling our streams and lakes with refuse; we need to help build up and maintain the balance of nature in the confined spaces into which we crowded wildlife.

We must learn that, having entrusted widely upon turning to our own use the natural resources of our country, we have an obligation to put back, in one way or another, as much as we take.

Then, in years to come, we may still enjoy the many benefits.

Letter to the Editor

The Editor,
The Coleman Journal,
Coleman, Alberta.

Dear Sir:
Now that another minor hockey season has come to an end, I feel that I would like to extend my personal thanks to the parents of Peps Greyhounds Hockey Club for their support in supplying transportation for this team to out of town hockey games.

We have not missed or had to leave one player behind from any hockey game for the want of transportation.

I would also like to thank Mr. Dean for notifying me of the days in which he had outings planned for the Junior Forest Wardens so that these boys that played hockey could attend the outings without a conflict on planned hockey games.

The record for Peps Greyhounds for this year's total hockey games played were 18—won 11, lost four games and tied three games.

These boys lost to Fernie (the champions of the East Kootenay) with a score of 3-0 for Fernie on March 24 in Fernie. They tied this same club on February 11 in Coleman with a score of 2-2. Lost to Fort Macleod by two goals. The other two games they lost were by one goal each.

I feel that my son Kenneth, the coach of this club and his assistant, Laurie Williams, have done a good job with these boys.

I would also like to thank these two boys for their personal donation of three dollars each towards the trophy which was presented to the winners of the Crows Nest Pass Banquets tournament. Personal donations from Coleman towards this trophy amounted to \$12. Donations from the Bellevue Fire Department, \$12.00, balance and other expenses came from Blairmore.

We hope that this sort of Pass co-operation shall continue into the future.

It is unfortunate that in our town that there is one person that is active in our local union and on our town council who has made statements that he doesn't give a care about the kids in our town. When people make this kind of statement then I feel that they have no part in the future of Can-

ada and they themselves cannot carry out their responsibilities to the people they represent. Some of these kids are mine, the rest of them are yours.

MEL TAJE.

Wedding Announcement

Mr. and Mrs. Roger Dumas of Edmonton, are pleased to announce the forthcoming marriage of their daughter Monique Colette to Mr. Denis Ramsay Collier, son of Mr. and Mrs. Trevor Collier of Peace River, formerly of Coleman and Camrose. Wedding to take place at St. Joachim Church, on May 11 at 4 p.m.

Wedding Announcement

Mr. and Mrs. Charles Roughhead of Coleman are very pleased to announce the forth coming marriage of their elder daughter, Judith Ann, to Aloise Rudolph Szymanek, son of Mr. and Mrs. Rudolph Szymanek of Coleman. The marriage will take place on May 18, at 10:30 a.m. in the Holy Ghost Catholic Church in Coleman.

In Memoriam

In Loving Memory of Andrew Dow, Who Passed Away on February 7, 1966, and Caroline Dow, Who Passed Away on April 9, 1967:

Treasure them Lord
In your Garden of Rest;
For on earth
They were two of the best.

Sadly Missed by Their Family.

Card of Thanks

We wish to thank our friends and neighbors for cards and flowers and all kind acts shown us in the recent sad bereavement in the loss of our dear Mother. Also thanks to the Sisters of Victoria Rebekah Lodge and the Sisters of Minerva Chapter, O.E.S. Your kindness and thoughtfulness will always be remembered.

Mrs. Mildred Holstead,
Mrs. Ethel Fischer.

NOTICE Trade of Floor Covering Mechanic

The Provincial Apprenticeship Board, having heard and considered request from industry, has recommended to the Minister of Labor that the trade of the FLOOR COVERING MECHANIC be designated as a trade to which The Apprenticeship Act applies.

The work of the Floor Covering Mechanic generally includes those techniques required for the installation of resilient floor covering materials.
